> SHE QUIT But It Was a Hard Pull.

It is hard to believe that coffee will put a person in such a condition as it did an Ohio woman. She tells her own story:

"I did not believe coffee caused my trouble, and frequently said I liked it so well I would not, and could not, quit drinking 4t, but I was a miserable sufferer from heart trouble and nervous prostration for four years.

I was scarcely able to be around, had no energy and did not care for anything. Was emaclated and had a constant pain around my heart until I thought I could not endure it.

Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until finally I asked myself what's the use of being sick all the time and buying medicine so that I could indulge myself in coffee?

SOLDIERS WHO WEAR VEILS!

British Troops in Southwest Africa Have to Conduct Campaign Under Difficulties

One of the hottest places where the British are fighting is in German Southwest Africa, where General Boths is in command of an expedition against the enemy. The habitable part of German Southwest Africa lies in the center of a sun-scorched, water less, shadeless desert of shifting sand, and General Botha's men have to carry everything they need, for nothing whatever can be obtained from the country, not even fodder for the animale.

The sand penetrates everywhere, and the heat of the sun is so terrific that all the troops fighting with Gen eral Boths have been served out with veils and "goggles." Without them, indeed, it would be impossible to get along at all, and, as it is, bundreds of the Boer burghers, though hardened campaigners, have been so blistered by the sun that they are in hospital.

The heat at midday is 122 degrees in the shade and the "shade" is a sweltering tent. Many of the troops pass that time of the day with nothing on but a sun helmet and a pair of boots,

American Soldier Properly Resented Filipino's Insult to a Spanish Officer.

The story is told by an English naval officer who witnessed the occurrence in Manila: "As I was crossing one of the numerous bridges across the Pasig river, I saw a native Fili-pine splt in the face of a Spanish officer, and then run for protection to the American sentinel, who was pacing the bridge. It was some time be fore the Fflipino could make himself understood, but when the sentry comprehended his action was very prompt indeed. He handed his gun to the Spanish officer, caught the native by the nape of the neck and the seat of his trousers, and pitched him off the bridge into the Pasig river. Then he calmly took his gun from the officer, and began pacing his beat, as if nothing had happened."-Unidentified,

WHAT TO DO FOR

YOUR ITCHING SKIN Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin-that is the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol cintment and resinol soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Restnol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol oint ment and resincl soap can be bought at any druggist's and are not at all
